

# Tedford Housing

## Fiscal Year 2018 by Numbers

**Our Mission:** Creating pathways from homelessness to home by partnering with people and their communities in Midcoast Maine.

\* This statistic refers to shelter guests exited to permanent, affordable housing where the tenant pays no more than 30% of income towards rent. These percentages are well above the Maine Housing performance measure of 30% for exits to permanent housing.

**Our Vision:** To meet the growing needs in our community, Tedford Housing’s current plans are to build a facility that combines adequate shelter beds with key onsite community resources. A comprehensive approach will result in the reduced risk of homelessness in the Brunswick area community, a faster return to housing stability for youth, adults and families, healthier households and increased self-sufficiency.
